Apr 20, 2026

David Burns

has successfully completed the online Professional Certificate

IBM and ISC2 Cybersecurity Specialist

Holders of this Professional Certificate have showcased their mastery in Cybersecurity to the level required for an entry-level cybersecurity specialist. The program prepared learners for an entry-level role by covering topics including IT fundamentals, cybersecurity essentials, security principles, incidence response practices including business continuity and disaster recovery, access control concepts, network security, and security operations. The certificate holder has also developed practical experience with Cybersecurity using hands-on exercises and projects. Additionally, the holder is well prepared to complete the Certified in Cybersecurity (CC certification from ISC2).
